

# membershipSubscribe

## Description

Subscribes a user to a group. With this call, the subscription is handled as a self subscription. Depending on the subscription mode used, the user may have to confirm the subscription (opt in) and may be notified of the successful subscription.

SubscriptionMode	Description
CONFIRMED_OPT_IN	New contacts receive a welcome message via email when they are added to the group. Despite the label used for this value, the contact does not need to confirm the subscription. A single opt-in subscription.
DOUBLE_OPT_IN	New contacts receive an invitation to join the group via email. The contact must accept the invitation before they are added to the group. A double opt-in subscription.
OPT_IN	New contacts are added to the group without notification.
