

# group getAllGroupSettingsTemplates

## Description

Gets all GroupSettingsTemplates that are defined in the system.  
GroupSettingTemplates predefine several settings in a template and can be applied using [/group/overrideGroupSettings](#) call.  
The mechanism for using GroupSettingTemplates is only available in a special configuration.

## Request path

GET [REST URL]/group/getAllGroupSettingsTemplates

## Example response

```
[
  {
    "id": [1002],
    "name": ["Group
Template 1"]
  },
  {
    "id": [1003],
    "name": ["Group
Template 2"]
  }
]
```
