landingpage getStatus

Description

Returns the publishing status of a landing page. Because these pages are usually associated with the lifetime of a particular email campaign, they may have a differing publishing status. Previously published pages that have become inactive because they are no longer valid are sometimes redirected to another default page. Possible states are:

- PUBLISHED
- INACTIVE
- SCHEDULED

Request path

```
GET [REST URL]/landingpage/getStatus
```

Query Parameters

Parameter	Type	Description
landingpageId	Long landingpageId	ID of the landing page

Example response

```
PUBLISHED
```
