

# preparedmessage find

## Description

Returns list of prepared messages. At least one of the following two fields is mandatory:

- 'lastUpdateDateFrom'
- 'creationDateFrom' - must be within 31 days of CreationDateTo.

CreationDateTo if is not given then by default is currentDate, if is given than obligatory is to use creationDateFrom as well.

To get the result faster, use limit (1-500).

Available from
v7

## Request path

POST [REST URL]/preparedmessage/find

## Query Parameters

Parameter	Type	Description
